

**Texas Altierus Career College**  
**Arlington (Mid-Cities), Ft. Worth South, Austin, Houston Bissonnet, Houston Hobby, San Antonio**  
**2017 - 2019 Catalog, Volume I, Version II**  
**Addendum Effective 07/23/18**

■ **ADDENDUM effective July 23, 2018:** The Computer Information Technology Associate of Applied Science degree program is no longer offered at the campus.

■ **ADDENDUM effective July 13, 2018:** The Altierus Student Emergency Fund is now available at the Bissonnet campus as shown below.

The Altierus Student Emergency Fund is available to help students with one-time emergency financial needs that may impact their ability to stay in school, such as past due rent, car repairs, medical bills, past due utilities, child care, or other living expenses. (Funding is not available to cover tuition, books or related fees.) A student may apply for up to \$1,000 in financial support during his or her enrollment at Altierus.

Funds are available only to students attending an Altierus Career College. To qualify, at the time of application students must:

- Be enrolled at least part-time status;
- Have a cumulative GPA of at least 2.0
- Have completed the first two mods, or terms, or their program;
- Have no holds on their student account;
- Demonstrate that the need for funds is due to unforeseen circumstances that are not likely to reoccur.
- Submit satisfactory documentation demonstrating an eligible financial need. Acceptable documentation may include bills, invoices, or receipts, displaying the name, address, and phone number of the entity to be paid. Receipts must be dated within 30 days of the application.

Qualifying expenses may include:

- Utilities
- Housing/Rent
- Medical/Dental expenses
- Personal automobile repairs or expenses (other than fuel expenses)
- Child care
- Public Transportation expenses
- Temporary displacement costs

Applications should be submitted online at [altierus.edu/emergencyfund](http://altierus.edu/emergencyfund). If approved, payment is issued directly to the vendor in question.

■ **ADDENDUM effective July 13, 2018:** The language below was updated as follows:

**ALTIERUS CAREER COLLEGE – BISSONNET**

The Bissonnet campus is conveniently located in the Westwood Technology Center on Bissonnet Street, just west of U.S. Highway 59. The campus has 60,000 square feet containing classrooms, allied health, trade and technology lecture and lab facilities, administrative offices, student lounge, restrooms and a learning resource center containing reference and reading materials related to the academic programs. Several classrooms are designed and equipped for laboratory instruction.

The Learning Resource Center is designed to support the programs offered at the campus. Students and faculty have access to a wide variety of resources such as books, periodicals, computers and on-line resources to support its curriculum. The Learning Resource Center is staffed with trained professionals to assist in the research needs of students and faculty, and it is conveniently open to accommodate class schedules.

This institution, the facilities it occupies and the equipment it uses comply with all federal, state and local ordinances and regulations, including those related to fire safety, building safety and health.

■ **ADDENDUM effective July 5, 2018:** The following language has been added to the Surgical Technology Associate Degree program information.

There is a required HESI cumulative score of 70% and a reading cumulative score of 70%. Additionally, each of the other three sections (Grammar, Vocabulary & Knowledge and Math) require a minimum score of 64%.

**Texas Altierus Career College**  
**Arlington (Mid-Cities), Ft. Worth South, Austin, Houston Bissonnet, Houston Hobby, San Antonio**  
**2017 - 2019 Catalog, Volume I, Version II**  
**Addendum Effective 07/23/18**

■ **ADDENDUM effective June 1, 2018:** The Surgical Technology Associate of Science degree program is now available at the Houston Bissonnet campus. The program information is included below.

**SURGICAL TECHNOLOGY**  
 Associate of Science Degree  
 24 Months – 94 Credits

The Surgical Technology Associate of Science degree program at Altierus Career College is designed to prepare students to provide critical support services to surgeons, nurses, anesthesia providers, and other surgical team members. Using a variety of learning resources, students will acquire the knowledge base of sterile technique, surgical instrumentation and equipment, surgical procedures, asepsis and patient care skills. During the clinical portion of the program, students will complete a minimum of 120 cases of various surgical specialties in the first and second scrub roles while supervised by a clinical preceptor.

This eight-quarter program includes general education and surgical technology courses and leads to an Associate in Science degree. In this program, students gain proficiency through class (theory), lab, and clinical experiences in a variety of settings assisting with a variety of surgical procedures.

**SLS 1317 - Strategies for Health Care Professional Success**

**4.0 Quarter Credits**

This course is designed to prepare students for transition in their health care professional education and life. The course includes introduction to the college and its resources, professionalism, study skills, test taking skills, critical thinking, medical terminology, abbreviations, math review, communication, teamwork, information technology, learning styles along with written and personal resource management skills. Students will be actively involved in learning and integrating practical applications to promote success. Prerequisites: None Lecture Hours: 40 Lab Hours: 0 Outside Hours: 20

**CGS 2060 - Computer Applications**

**4.0 Quarter Credits**

This course introduces the essential concepts necessary to make effective use of the computer. Students achieve an understanding of what a computer can do, how it works, and how it can be used to create documents using word processing and spreadsheet applications for personal and business use. Prerequisites: None Lecture Hours: 40 Lab Hours: 0 Other Hours: 20

**Texas Altierus Career College**  
**Arlington (Mid-Cities), Ft. Worth South, Austin, Houston Bissonnet, Houston Hobby, San Antonio**  
**2017 - 2019 Catalog, Volume I, Version II**  
**Addendum Effective 07/23/18**

**HSA 1529 - Diseases of the Human Body** **4.0 Quarter Credits**  
This course provides a study of the human body's diseases and disorders, including signs, symptoms, etiology, diagnosis, and treatment. Prerequisites: BSC 1085, BSC 1086 Lecture Hours: 40 Lab Hours: 0 Outside Hours: 26

**MCB 2000 - Microbiology and Infection Control** **4.0 Quarter Credits**  
This course is designed to provide the student with an overall understanding of basic microbiology, infection control, disease processes and the body's defenses against them, and wound healing, as well as the terminology associated with each of these areas of concentration. Prerequisite: SLS 1317 Lecture Hours: 40 Lab Hours: 0 Outside Hours: 20

**STS 1001 - Principles and Practices of Surgical Technology** **4.0 Quarter Credits**  
This course is designed to provide the student with an overall understanding and orientation to the field of surgical technology. Included in this course are professional responsibilities and relations, interpersonal relationships and communication skills, death and dying, legal and ethical responsibilities, the operating room environment, and safety. Prerequisite: None Lecture Hours: 40 Lab Hours: 0 Outside Hours: 20

**STS 2007 - Surgical Pharmacology** **4.0 Quarter Credits**  
This course is designed to provide the student with an overall understanding of the theory and the hands-on applications involved in surgical pharmacology. Prerequisites: SLS 1317, MAT 1033. Lecture Hours: 40 Lab Hours: 0 Outside Hours: 20

**STS 2171 - Surgical Technology I** **4.0 Quarter Credits**  
This course is designed to provide the student with an overall understanding and the hands-on skills involved in following medical and surgical aseptic techniques and in providing basic pre-operative care to the surgical patient. Prerequisites: SLS 1317, STS 1001. Lecture Hours: 30 Lab Hours: 20 Outside Hours: 20

**STS 2172 - Surgical Technology II** **4.0 Quarter Credits**  
This course is designed to provide the student with an overall understanding of the theory and the hands-on applications involved in the use and maintenance of surgical instruments and equipment. Robotics, physics and electricity are also introduced. Prerequisite: STS 2171. Lecture Hours: 30 Lab Hours: 20 Outside Hours: 20

**STS 2173 - Surgical Procedures I** **6.0 Quarter Credits**  
This course is designed to provide the student with an overall understanding of the theory and hands-on applications involved in surgical specialties of General, Obstetrics & Gynecology, Genitourinary, Otorhinolaryngology, and Oral/Maxillofacial surgical specialties. Prerequisites: BCS 1085, BSC 1086, HSA 1529, STS 2172 Lecture Hours: 40 Lab Hours: 40 Outside Hours: 20

**STS 2174 - Surgical Procedures II** **6.0 Quarter Credits**  
This course is designed to provide the student with an overall understanding of the theory and the hands-on applications involved in surgical procedures of the ear, nose, and throat, ophthalmic surgery, plastic surgery, orthopedic surgery, surgery of the nervous system, thoracic surgery, and cardiovascular and peripheral vascular surgery. Prerequisite: STS 2173. Lecture Hours: 40 Lab Hours: 40 Outside Hours: 20

**STS 2175 - Clinical Rotation I** **5.0 Quarter Credits**  
This 150-hour course is designed to provide the student with supervised, practical hands-on and observational experiences in the clinical area. As part of the experience, students may rotate throughout various departments within the clinical area. Prerequisite: STS 2174. Lecture Hours: 0 Lab Hours: 0 Clinical Hours: 150 Outside Hours: 0

**STS 2176 - Clinical Rotation II** **11.0 Quarter Credits**  
This course is a continuation of the skills practiced in STS 2175C with continued supervised, practical hands-on and observational experiences in the clinical area. During this rotation, students will rotate throughout the operating room, as well as other surgical and non-surgical departments, including the obstetrics delivery room, emergency room, and the out-patient surgery department. Prerequisites: STS 2174, STS 2175. Lecture Hours: 0 Lab Hours: 0 Clinical Hours: 350 Outside Hours: 0

**STS 2200 - Surgical Technologist Certification Examination Review** **2.0 Quarter Credits**  
This course is designed to guide students in the preparation for the Surgical Technologist Certification Examination. Test-taking strategies will be discussed and implemented with an in-depth review of application level questions that require critical thinking skills. A review will be provided of the Surgical Technologist knowledge, skill, and abilities necessary to provide quality surgical patient care. Prerequisites: STS 2174, STS 2175. Lecture Hours: 20 Lab Hours: 0 Clinical Hours: 0 Outside Hours: 30

**Texas Altierus Career College**  
**Arlington (Mid-Cities), Ft. Worth South, Austin, Houston Bissonnet, Houston Hobby, San Antonio**  
**2017 - 2019 Catalog, Volume I, Version II**  
**Addendum Effective 07/23/18**

**ENC 1101 - Composition I** **4.0 Quarter Credits**  
 This course provides instruction and practice in expository writing and emphasizes grammatical and mechanical accuracy and proper essay form. Emphasis is placed on clarity, logical organization, unity, and coherence of central ideas and supporting material. Prerequisites: None Lecture Hours: 40 Lab Hours: 0 Outside Hours: 20

**ENC 1102 - Composition II** **4.0 Quarter Credits**  
 This course builds on the foundation of the written communication skills developed in Composition I. It further develops the students' skills in composing essays and other written communication, including the documented research paper. Prerequisites: ENC 1101 Lecture Hours: 40 Lab Hours: 0 Outside Hours: 20

**MATP 1023 – Quantitative Reasoning** **4.0 Quarter Credits**  
 This course will introduce students to the skills needed to think critically, make informed decisions, provide reason from evidence, and become numerically literate to understand how numbers are used to communicate in their everyday lives. Emphasis is placed on open-ended exercises that involve reading, writing, calculating, synthesizing, and clearly explaining results using quantitative information. Prerequisites: None Lecture Hours: 40 Lab Hours: 0 Outside Hours: 20

**SPC 2300 - Fundamentals of Interpersonal Communication** **4.0 Quarter Credits**  
 The dynamics of interaction between people in personal, social and workplace situations are explored to better understand how interpersonal communication shapes relationships. Exploration will occur through readings, discussion, and application exercises. Prerequisites: None Lecture Hours: 40 Lab Hours: 0 Outside Hours: 20

**EVS 1001 - Environmental Science** **4.0 Quarter Credits**  
 This course covers environmental issues and illustrates the importance of environmental science in students' daily lives. The relationship between humans and the environment is explored to demonstrate to students their role in the state of the environment. Environmental issues such as invasive species, climate change, pollution, and corrective actions will be studied. Prerequisites: None Lecture Hours: 40 Lab Hours: 0 Outside Hours: 20

**PSY 2012 - General Psychology** **4.0 Quarter Credits**  
 This course covers the fundamental theories and principles of human psychology with an emphasis on applying the concepts to life and work in order to promote effective critical thinking and learning, understanding of emotions and motivations, positive social and workplace interactions, and the importance of the roles played by the unconscious and subconscious minds. Beginning with the historical foundations of psychology, students will study the groundwork for more contemporary perspectives. Study of the brain and its developmental stages, cognitive, motivational, and emotional functions, as well as disorders and their treatment provide a holistic investigation of the human mind as we know it. Prerequisites: None Lecture Hours: 40 Lab Hours: 0 Outside Hours: 20

**BSC 1085 – Anatomy and Physiology I** **4.0 Quarter Credits**  
 This course is a scientific study of the structure of the human body and its parts including relationships and functions of the integumentary, skeletal, muscular, nervous system, special senses and the endocrine systems. Prerequisites: None Lecture Hours: 40 Lab Hours: 0 Outside Hours: 20

**BSC 1086 – Anatomy and Physiology II** **4.0 Quarter Credits**  
 This course is a study of the structure of the human body and its parts including relationships and functions of the cardiovascular, lymphatic, respiratory, digestive, urinary and reproductive systems. Prerequisites: BSC 085 Lecture Hours: 40 Lab Hours: 0 Outside Hours: 20

**2017 - 2019 Catalog, Volume I, Version II**  
**Addendum Effective 07/23/18**

■ **ADDENDUM effective June 1, 2018:** The new Electrical Construction Technician diploma program information for the Bissonnet campus was added to the catalog.

**ELECTRICAL CONSTRUCTION TECHNICIAN**

*Diploma Program*

36 weeks – 720 hours – 58 credit units

The **Electrical Construction Technician** program is designed to prepare students for entry-level jobs installing or modifying electrical systems as part of a new construction or renovation of residential, commercial buildings, or similar projects. The program is designed for learners to acquire the specialized knowledge and skills required to successfully perform on the job including: complying with workplace safety requirements; applying electrical theory in the design, installation, and repair of circuits and devices; interpreting plans and drawings correctly; applying National Electrical Code standards to the installation of raceways, conductors, devices, and other utilization equipment; selecting appropriate materials for a given installation; and using tools and equipment properly to complete a given task.

The ultimate objective of the Electrical Construction Technician program is to prepare graduates for entry-level employment with electrical contractors, or other businesses that require employees to have specialized training to install, maintain, and or repair electrical systems in buildings or related facilities. Some typical positions for graduates of this program include: Apprentice Electrician, Electrician Helper, Electrical Installer, Residential Electrician, Commercial Electrician, Facilities Maintenance Technician, Lighting Maintenance Technician and more.

| Course Code                     | Course Title                          | Total Contact Hours | Quarter Credit Hours |
|---------------------------------|---------------------------------------|---------------------|----------------------|
| <b>Prerequisite Courses</b>     |                                       |                     |                      |

**CON 1010 Basic Construction**

**6.5 Quarter Credit Hours**

This course introduces students to the construction field. The course of instruction will cover basic job safety concepts and regulatory requirements, basic math used in the construction trades, the use of common hand and power tools, and an introduction to blueprint reading, material handling, communication and employability skills. Students will also learn techniques for studying and test-taking. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: None Lecture Hours: 50 Lab Hours: 30

**EEV 1031 Electrical Theory**

**8.0 Quarter Credit Hours**

Electricity makes the modern world possible by providing the power needed for lighting, air-conditioning, communications, and computers, yet how it works is a mystery to most. This course provides a basic understanding of how electrical energy is used to produce useful work, how it is measured and tested, and the calculations required for analyzing electrical circuits. Topics of study include direct-current (DC) and alternating-current (AC) systems, transformer operation, basic electronic components and semiconductors. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: None Lecture Hours: 80 Lab Hours: 0

**EEV 1103 Electrical Craft Skills**

**6.0 Quarter Credit Hours**

Electricians use specialized skills to install and repair electrical systems in homes and businesses. This course is designed for students to learn the basic skills needed in the electrical craft that include working safely with electricity, proper usage of hand and power tools, procedures for installing electrical conduit, boxes, wiring, and determining minimum installation requirements of the National Electrical Code. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: None Lecture Hours: 40 Lab Hours 40

**Texas Altierus Career College**  
**Arlington (Mid-Cities), Ft. Worth South, Austin, Houston Bissonnet, Houston Hobby, San Antonio**  
**2017 - 2019 Catalog, Volume I, Version II**  
**Addendum Effective 07/23/18**

**EEV 1710 Large Raceways and Feeders**

**6.0 Quarter Credit Hours**

Electrical power is supplied and distributed throughout buildings using large conductors that feed electrical current to multiple load centers. This course prepares students to install the raceways, pull boxes, junction boxes, conductors, and cables required for these distribution systems. Students will learn to bend conduit using mechanical, electric, and hydraulic benders and also the procedures for setting up cable pulling equipment. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: CON1010, EEV1031, EEV1103 Lecture Hours: 40 Lab Hours: 40

**EEV 1720 Conductors and Overcurrent Protection**

**6.5 Quarter Credit Hours**

The size of an electrical conductor determines how much current it can carry and exceeding this limit can result in hazardous conditions that could lead to equipment damage, fire and personal injury. Therefore it is crucial that an electrician determine the correct size of wire for an electrical circuit and how to protect it from various fault-currents. This course enables students to identify the circuit faults that cause overcurrent and the minimum requirements of the National Electrical Code to safeguard those circuits. Additional topics of study include the minimum requirements for grounding and bonding electrical systems and equipment. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: CON1010, EEV1031, EEV1103 Lecture Hours: 50 Lab Hours: 30

**EEV 1730 Residential Wiring**

**6.0 Quarter Credit Hours**

One of the more common jobs for an electrician is the installation or repair of the electrical system of a person's home. This course familiarizes the student with the materials and methods used in modern residential construction and the minimum requirements for installing a complete electrical system for a typical residence. Students will learn and practice techniques for installing non-metallic sheathed cables, device boxes, receptacles, switches, lighting fixtures, circuit breaker panels, and service entrance equipment. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: CON1010, EEV1031, EEV1103 Lecture Hours: 40 Lab Hours: 40

**EEV1735 Lighting and Low-Voltage Systems**

**6.0 Quarter Credit Hours**

Any list of world-changing inventions would have to include electric lighting and, well over a century after its introduction, electricians are still the primary trade responsible for installing and maintaining it. This course introduces the basic principles of light and how lighting is used to enhance safety, worker productivity, sales, etc. Additional topics include basic requirements and applications for low-voltage systems for voice and data communications, video surveillance, and alarm systems. Prerequisites: CON1010, EEV1031, EEV1103 Lecture Hours: 40 Lab Hours: 40

**EEV 1750 Transformers and Power Distribution**

**6.5 Quarter Credit Hours**

A properly installed and maintained power distribution system is critical to the operation of commercial buildings and industrial facilities. This course familiarizes the student with the various types of electrical equipment used to distribute power within a building including service entrance equipment, switchgear, transformers, and backup power sources. Additional topics include the process for calculating electrical load and proper sizing and selection of conductors. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: CON1010, EEV1031, EEV1103 Lecture Hours: 40 Lab Hours: 40

**EEV 2035 Electric Motors**

**6.5 Quarter Credit Hours**

One of the main uses for electricity is to make something move and this is what electric motors are used for. Motors are unique in that the amount of electrical current required to operate them changes with the load that is placed on the motor. This course explores the basic construction, operation, and maintenance of various direct-current (DC) motors, single-phase and three-phase alternating-current (AC) motors, and the minimum National Electrical Code requirements for circuits supplying motors. Students also learn to install basic control circuits to stop, start, and reverse motors. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: CON1010, EEV1031, EEV1103 Lecture Hours: 40 Lab Hours: 40

**Texas Altierus Career College**  
**Arlington (Mid-Cities), Ft. Worth South, Austin, Houston Bissonnet, Houston Hobby, San Antonio**  
**2017 - 2019 Catalog, Volume I, Version II**  
**Addendum Effective 07/23/18**

■ **ADDENDUM effective June 1, 2018:** The HVAC Technician diploma program at the Bissonnet campus was revised as shown below. Please note that the tuition and calendars have changed, but the SAP table, grade scale, total contact and credit hours remain the same.

**HEATING, VENTILATION AND AIR CONDITIONING (HVAC) TECHNICIAN**

*Diploma Program*  
 Bissonnet Campus  
 36 weeks – 720 hours – 55 credit units  
 Modality: Full Blended

The **HVAC Technician** program is designed to prepare students for entry-level jobs installing, maintaining and repairing heating, ventilating, and air-conditioning (HVAC) equipment in residential and commercial buildings. The program is designed for learners to acquire the specialized knowledge and skills required to successfully perform on the job including: complying with workplace and environmental safety requirements; applying the basic principles of refrigeration and heat transfer to the installation and repair of heating and cooling systems; interpreting plans and drawings correctly; using proper techniques to install piping, ductwork, and equipment when completing a given task; using hand and power tools, test equipment, and refrigerant-handling equipment correctly when servicing HVAC equipment; and demonstrating professional behavior and clear communication skill at all times in the workplace.

The ultimate objective of the HVAC Technician program is to prepare graduates for entry-level employment with mechanical contractors, air-conditioning service and installation companies or other businesses that require employees to have specialized training to install, maintain, and or repair HVAC equipment in residential and commercial buildings. Some typical positions for graduates of this program include: HVAC Installer, HVAC Technician, Facilities Maintenance Technician, Building Maintenance Technician, Building Engineer, and Assistant Building Engineer.

|--|--|
| <p><b>CON 1010 Basic Construction</b></p> <p>This course introduces students to the construction field. The course of instruction will cover basic job safety concepts and regulatory requirements, basic math used in the construction trades, the use of common hand and power tools, and an introduction to blueprint reading, material handling, communication and employability skills. Students will also learn techniques for studying and test-taking. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: None Lecture Hours: 50 Lab Hours 30</p> | <p><b>6.5 Quarter Credit Hours</b></p> |
| <p><b>ACR 1020 HVAC/R Craft Skills</b></p> <p>Air-conditioning and refrigeration technicians use specialized skills to install, repair, and maintain heating and cooling systems. This course provides the opportunity for students to learn the basic skills used in the craft for installing copper, plastic, and steel piping, reading construction drawings, and selecting the correct hardware and fasteners for an installation. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: None Lecture Hours: 40 Lab Hours: 40</p>                        | <p><b>6.0 Quarter Credit Hours</b></p> |

**Arlington (Mid-Cities), Ft. Worth South, Austin, Houston Bissonnet, Houston Hobby, San Antonio**  
**2017 - 2019 Catalog, Volume I, Version II**  
**Addendum Effective 06/01/18**

|  |                                 |
|--|---------------------------------|
| <b>ACR 1030 Basic Air Conditioning</b>   | <b>6.0 Quarter Credit Hours</b> |
| The basic principle behind air-conditioning is to move heat from inside a building to the outside leaving the interior space cooler. This course introduces the fundamental concepts and technology at the core of every air-conditioning system. Topics include a survey of the basic types of air-conditioning equipment, a thorough study of the heat transfer process, the refrigeration cycle, components of an air-conditioning system, and modern refrigerants. In addition, students will learn to use manifold gauges and other testing equipment to measure system operation. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: None, Lecture Hours: 40, Lab Hours: 40  |                                 |
| <b>ACR 1040 Electricity for HVAC/R Technician</b>  | <b>6.0 Quarter Credit Hours</b> |
| The machinery used to provide heating, cooling, and refrigeration uses electric motors to turn fans, blowers, and compressors and has complex electrical control systems. Many of the problems encountered by HVAC/R technicians involve electrical systems, so technicians must have a thorough knowledge of electricity to work on the equipment. This course covers basic electrical theory and calculations, using electrical meters, reading schematic diagrams, and basic controls used on HVAC/R systems. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: None, Lecture Hours: 40, Lab Hours: 40   |                                 |
| <b>ACR 1210 HVAC/R System service and Maintenance</b>  | <b>6.0 Quarter Credit Hours</b> |
| Most HVAC/R technicians not only install new systems but also maintain and repair existing ones. This course provides students the opportunity to learn the proper procedures for removing and installing refrigerant in cooling systems, finding leaks, and performing basic maintenance functions. Additional topics include a review of EPA608 requirements for handling refrigerant and techniques for ensuring excellent customer service. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: ACR 1020, ACR 1030, ACR 1040, Lecture Hours: 40, Lab Hours: 40  |                                 |
| <b>ACR 1220 Basic Heating Systems</b>  | <b>6.0 Quarter Credit Hours</b> |
| The installation and maintenance of heating systems requires special care because flame and combustible fuels are involved. This makes the potential for fire or explosion a real threat. This course reviews principles of heat transfer, combustion and the typical fuels and equipment used to heat homes and businesses. These include gas furnaces, electric heating, and boilers. Additional topics include requirements for venting and exhausting of fuel-burning appliances and troubleshooting. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: ACR 1020, ACR 1030, ACR 1040, Lecture Hours: 40, Lab Hours: 40  |                                 |
| <b>ACR 1310 Advanced Heating Systems</b>   | <b>6.0 Quarter Credit Hours</b> |
| There are more efficient ways to heat and cool homes and businesses other than just burning fossil fuels. This course explores some of them. This course covers the installation, operation and maintenance of heat pumps, and surveys alternative heating and cooling systems. These systems include solar heating, pellet stoves, evaporative coolers, spot cooling, and computer room units. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: ACR 1020, ACR 1030, ACR 1040, Lecture Hours: 40, Lab Hours: 40  |                                 |
| <b>ACR 1320 Air Distribution</b>   | <b>6.0 Quarter Credit Hours</b> |
| The overall performance of an HVAC system is closely linked to the quality of the air distribution system used to move air to and from the A/C unit. This course prepares students for jobs installing and maintaining the ductwork and air-handling units in residential and commercial buildings. This course covers the installation requirements for various types of ductwork including basic techniques used to fabricate ductwork on the job. Additional course topics include commercial airside units; variable air volume (VAV) and variable volume, variable temperature (VVT) systems; and maintaining air quality within buildings. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: ACR 1020, ACR 1030, ACR 1040, Lecture Hours: 40, Lab Hours: 40 |                                 |
| <b>ACR 1330 Energy Conservation Methods</b>  | <b>6.5 Quarter Credit Hours</b> |
| This course reviews the various strategies used in the design of energy efficient heating and cooling systems that include calculating heating and cooling loads, laying out and sizing ductwork, and equipment selection. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: ACR 1020, ACR 1030, ACR 1040, Lecture Hours: 40, Lab Hours: 40   |                                 |

| BISSONNET   |                |              |          |                                     |
|---|----------------|--------------|----------|-------------------------------------|
| Program   | Program Length | Credit Units | Tuition  | Textbooks and Equipment (estimated) |
| Heating, Ventilation and Air Conditioning Technician (Full Blended) | 36 Weeks       | 55           | \$14,500 | Included in tuition                 |
| Effective on or after June 4, 2018                                  |                |              |          |                                     |

All new students enrolling in a diploma program will be assessed a lab fee of \$150 per academic year. Academic years consisting of externship hours only will not be assessed the \$150 lab fee.

\*End Date due to Thanksgiving Holiday

**Texas Altierus Career College**  
**Arlington (Mid-Cities), Ft. Worth South, Austin, Houston Bissonnet, Houston Hobby, San Antonio**  
**2017 - 2019 Catalog, Volume I, Version II**  
**Addendum Effective 06/01/18**

- **ADDENDUM effective May 25, 2018:** The following language was added to the catalog and applies to Medical Assistant students only.

**iPads and Keyboard/Cases**

An iPad or similar device is required for participation in the Medical Assistant (MA) program. Technology in the hands of students empowers them to become the architects of their education and the learning process. For this reason, Altierus will be providing all Medical Assistant students with an iPad and keyboard/case as a part of their instructional materials fee which may be covered by financial aid resources if qualified.

To receive their iPad and keyboard/case as part of their instructional resources, MA students do not need to do anything. An iPad and keyboard/case will be issued to all MA students beginning with the July 2018 session and, if they qualify, financial aid resources will be utilized to cover the cost, as with all other related course materials. This iPad and keyboard/case is purchased, thus, they are owned by the student and remains the student's property after graduation. Altierus is not responsible for damaged, lost, or stolen iPads or keyboard/cases.

We strongly recommend that students receive the iPad and keyboard/case as a part of their instructional materials fee so that their iPad and keyboard/case are sufficient for all their learning needs and enables an engaging, technology-rich classroom. Students that wish to forego this opportunity and opt out of receiving this important technology tool must provide their own iPad or mobile computing device that meets the minimum requirements on the Altierus technology specifications page. Altierus is not able to provide support for any device purchased outside of the Altierus instructional materials purchase pathway. Students opting to provide their own iPad or mobile computing device are required to have all apps and textbooks required by their course syllabus and their instructors for each of their classes. Failure to provide a sufficient iPad or device may result in the student not being able to participate fully in the classroom learning enrichment activities and can negatively impact the student's overall learning experience. Students wishing to opt out of purchasing the iPad need to indicate their decision by signing the iPad Opt Out form at the student portal.

- **ADDENDUM effective May 25, 2018:** The tuition and estimated textbooks & equipment cost for the Medical Assistant diploma program at the Houston Bissonnet campus was updated as follows.

| <b>Houston Bissonnet</b>            |                       |                     |  |                |
|-------------------------------------|-----------------------|---------------------|--|----------------|
| <b>Diploma Program</b>              | <b>Program Length</b> | <b>Credit Units</b> | <b>Textbooks &amp; Equipment (estimated)</b> | <b>Tuition</b> |
| Medical Assistant                   | 41 Weeks              | 60                  | \$2,252.28                                   | \$11,805       |
| *Effective on or after May 25, 2018 |                       |                     |  |                |

- **ADDENDUM effective May 25, 2018:** The new Title IX Coordinator is Susan Samek and the contact information was updated under **APPENDIX A** at the bottom of page 114 of the catalog as shown below.

<sup>1</sup> Title IX of the Education Amendments of 1972 prohibits discrimination based on sex in education programs and activities in federally funded schools at all levels. The Title IX Coordinator's purpose is to ensure that an institution maintains an environment for students that is free from unlawful sex discrimination in all aspects of the educational experience, including academics and extracurricular activities. The Title IX Coordinator for the Altierus – Atlanta West and Norcross campuses is Susan Samek. Please send your concerns to Zenith Education Group, 111 South Washington Avenue, Minneapolis, MN 55401 or to TitleIXquestions@zenith.org. You may also call the Title IX Coordinator directly at 714-825-7161.

- **ADDENDUM effective May 25, 2018:** The schools no longer offer online programs and no longer accept international students. All language and policies referencing online programs and international students was removed from the catalog.

- **ADDENDUM effective April 27, 2018:** In order to help Medical Billing and Coding students at the Houston Bissonnet campus, whose graduation falls in the following year after enrollment, prepare for the AAPC exam in that new year, a book was added to the program, therefore increasing the tuition by \$200. The tuition increase for this program only applies to students who start classes anytime between May through December. The tuition will remain at \$14,500 for students who start anytime between January and April.

■ **ADDENDUM effective March 27, 2018:** Future printings of the school catalogs and addendums will include proper trademark symbols when using “GI Bill®”.

**Texas Altierus Career College**  
**Arlington (Mid-Cities), Ft. Worth South, Austin, Houston Bissonnet, Houston Hobby, San Antonio**  
**2017 - 2019 Catalog, Volume I, Version II**  
**Addendum Effective 06/01/18**

- **ADDENDUM effective March 27, 2018:** The Retroactive Veterans' Benefits section was updated as follows:

#### **Retroactive Veterans' Benefits**

Veterans' benefits can be paid for enrollments up to one year before VA receives a student's application. The date stamped on the student's application determines the one-year date. Retroactive benefits may be handled differently and may exceed one year, therefore, the student should contact the DVA directly for information about this option. Schools may certify students retroactively for enrollment periods not previously certified. VA will determine the date of eligibility and the beginning date from which benefits can be paid.

- **ADDENDUM effective March 27, 2018:** The second paragraph of the Prior Credit for Education and Training section was updated below.

#### **Prior Credit for Education and Training**

All VA beneficiaries are required to disclose prior postsecondary school attendance, military education and training, and provide transcripts for such education and training. Students are expected to provide the school with official transcripts evidencing prior postsecondary school attendance, military education and training for the purposes of evaluating and granting, as appropriate, any such credit. The school is responsible for evaluating transcripts of previous education and experience, granting credit, as appropriate, notifying the student, and shortening the program certified accordingly.

Prior credit must be evaluated within the first two (2) terms of the enrollment period for a student enrolled in a diploma program and within the first twenty-four (24) weeks of instruction for student enrolled in a degree program. If all transcripts have not been provided to the school by the end of this time frame, the school will be unable to certify any additional enrollment periods and the student will be ineligible to receive any further funding.

- **ADDENDUM effective March 19, 2018:** The additional transcript fee is \$10.00 as shown in the Transcript and Diploma Release section below.

#### **TRANSCRIPT AND DIPLOMA RELEASE**

Requests for transcripts must be submitted to the Office of the Registrar via the school electronic transcript service provider. Student records may be released only to the student or his/her designee as directed by the Family Educational Rights and Privacy Act of 1974. Students will receive one free transcript at the time of graduation with their diploma. Additional transcripts are \$10.00 per copy.

Pursuant to Florida law, any student enrolled at or seeking an official transcript from a Florida campus will not be eligible to receive an official transcript if the student is determined to be in default in making legally required payments on any student loan made or guaranteed by the State of Florida or its agencies (such as the Florida Office of Student Financial Assistance ("OFSA")), including any OFSA scholarship loan, student loan, or guaranteed loan. Any such student may not receive an official transcript until the loan is paid in full or the default status has been removed.

Altierus is working with Parchment to provide electronic delivery of official transcripts to students. Students can request their transcript by going to <https://www.altierus.edu/alumni> or by contacting the Registrar office for assistance.

Transcripts will be delivered electronically to the student's destination of choice if:

- Student has a record in the current student information system
- Student is current with their financial obligation to the campus, and student owes the campus an outstanding balance of \$1,500 or less

Upon graduation, all students who are current with their financial obligation to the campus will receive their diploma.

**Note:** Students who have outstanding balances above \$1,500 may receive an unofficial copy of their transcript.

**\*Effective April 1, 2018**

- **ADDENDUM effective March 19, 2018:** The following language was updated in the catalog and is effective on March 1, 2018:

#### **ACADEMIC COUNSELING AND READINESS**

Incoming prospective students, prior to enrollment, must provide evidence demonstrating their level of academic readiness as demonstrated by a high school diploma or recognized equivalent. Prior to course registration, prospective students must also provide evidence demonstrating their level of academic readiness as described

**Texas Altierus Career College**  
**Arlington (Mid-Cities), Ft. Worth South, Austin, Houston Bissonnet, Houston Hobby, San Antonio**  
**2017 - 2019 Catalog, Volume I, Version II**  
**Addendum Effective 06/01/18**

below. If evidence cannot be provided by meeting the benchmarks below, the student must take the required assessment.

Acceptable measures of academic readiness that do not require counseling or remediation include:

- **Recent high school academic performance:** A high school cumulative grade point average (GPA) of 2.6 or higher on a 4 point scale (80% or higher on a numeric scale), with a date of high school graduation 4 years or less prior to the date of admission. High school seniors who have not yet graduated may use cumulative GPA at the end of 7 high school semesters.
- **Prior postsecondary performance:** An English Composition or writing-intensive general education course with a grade of C or higher, taken from a nationally or regionally accredited postsecondary institution, which suggests readiness level for reading and writing, and College Algebra with the same criteria, which suggests readiness level for mathematics. Developmental courses (generally noted as remedial or pre-college on a transcript and not calculated into a college GPA) do not qualify. Review and approval of previous college experience to be completed by office of the Registrar.
- **Recent standardized test scores:** Test scores at or above the thresholds below on tests administered 4 years or less prior to the date of admission:

| Assessment Method   | Composition                               | Math                  |
|---|---|-----------------------|
| SAT Scores<br>(Completed before 3/16)                           | 460                                       | 460                   |
| SAT Scores<br>(Completed after 3/16)                            | Reading—25<br>Writing—27<br>Evidence—520  | 500                   |
| PSAT Scores<br>(taken prior to December of 2014)                | Reading—46<br>Writing—46<br>Total CR+W—92 | 46                    |
| PSAT Scores<br>(taken after January of 2015)                    | Reading—46<br>Writing—46<br>Total CR+W—92 | 52                    |
| ACT Scores  | Reading—18<br>Writing—22                  | 22                    |
| MRT Scores  | 70%                                       | 70%                   |
| External Institution<br>ACCUPLACER (1 <sup>st</sup> Generation) | 80+ Sentence Skills<br>76+ Reading        | 74 Elementary Algebra |
| ACCUPLACER (Next Generation)                                    | 263+ Reading<br>263 + Writing             | 263+ Arithmetic       |
| Compass   | 85+ Reading<br>74+ Writing                | 50+ Math              |

If evidence of Academic Readiness cannot be provided as described above, the student must take the required assessment. For diploma students, the *MyReadinessTest*, a non-proctored, web-based assessment of fundamental math, reading, and writing skills must be taken. For Degree students, including Nursing and Surgical Technology students, ACCUPLACER, a proctored, nationally-normed web-based assessment of fundamental math, reading, and writing skills must be taken.

**Academic Readiness for Nursing and Surgical Technology Programs**

All Nursing and Surgical Technology Programs require administration of Test of Essential Academic Skills (TEAS). The TEAS is an entrance exam intended to predict the success of students in nursing and Surgical Technology programs. Documentation that a nursing associate degree or surgical technology student has met the applicable requirements above must be retained and present in the student's file prior to enrollment.

**Nursing, Associate in Science Degree**

Applicants must achieve a composite score of 66 or higher on the TEAS to be considered for entrance to the Associate Degree Nursing Program.

- If first time test taker fails (below 75%), must wait 7 days to retest.
- If second time test taker fails (below 75%), must wait 90 days to retest.
- If third time test taker fails again, must wait a year to retest.

**Texas Altierus Career College**  
**Arlington (Mid-Cities), Ft. Worth South, Austin, Houston Bissonnet, Houston Hobby, San Antonio**  
**2017 - 2019 Catalog, Volume I, Version II**  
**Addendum Effective 06/01/18**

**Surgical Technology, Associate in Science Degree**

Applicants must achieve a composite score of 60 or higher on the TEAS to be considered for entrance to the Associate Degree Nursing Program.

- If first time test taker fails (below 75%), must wait 7 days to retest.
- If second time test taker fails (below 75%), must wait 90 days to retest.
- If third time test taker fails again, must wait a year to retest.

**Academic Readiness Interventions**

Diploma students scoring below 70% on the *MyReadinessTest* (MRT) must meet with an advisor who will place students in the specific intervention based on program of study and modality, prior to enrollment.

Degree students scoring below 263 in reading, writing, and arithmetic must meet with an advisor to discuss the required academic support course(s).

**Online Readiness**

Prospective students are required to complete an Online Readiness Assessment (ORA) prior to enrollment. Students who score below 40 points on the Online Readiness Assessment (ORA) will be required to meet with an advisor to discuss his/her scores.

**Retaking Assessments**

All incoming applicants with the exception of Nursing Associate Degree and Surgical Technology programs are not permitted to retake an assessment for six months from the date of the initial assessment, unless approved by an academic advisor due to extenuating circumstances (e.g., compromised assessment environment).

All incoming Nursing Associate Degree and Surgical Technology program applicants who do not achieve the minimum required score on the assessment must refer to the program handbook for details on retesting.

Re-entering students will not be required to retake the academic readiness assessment if all required benchmark evidence, exam results, and advising and remediation documentation are in the student's permanent academic file and recorded in the system of record as per the above criteria.

■ **ADDENDUM effective March 19, 2018:** The Retaking Failed Coursework section below was updated in the catalog and is effective on March 1, 2018:

**Retaking Failed Coursework**

Students must repeat all failed courses that are required for graduation from the program. Students in diploma programs may not exceed three attempts of courses. Students in degree programs must request permission to repeat a course after the second attempt to pass. Each attempt counts in the calculation of the students' rate of progress and maximum time frame. All repeated coursework will appear on the student's transcript, but only the highest grade earned will be included in the calculation of their cumulative grade point average. If a student doesn't pass a course after three attempts in a diploma program or if a course retake request is denied for a required course in a degree program, the student will be dismissed due to their inability to meet the program requirements for graduation.

Veterans Affairs (VA) students are not eligible for VA funding for repeating passed coursework.

■ **ADDENDUM effective March 19, 2018:** The Academic Forgiveness language below was added to the catalog and is effective on March 1, 2018:

**Academic Forgiveness**

Academic Forgiveness offers a fresh start to students who have been separated from the college for a period of at least one (1) year and who wish to re-enroll. The student can re-enroll into the same or a different program. The student's grade point average begins with the new matriculation date; however, the former record will remain on the transcript. The student will retain the credits for any course(s) in which a grade of C or better was earned. This offer is only available once throughout the students' academic career with Zenith. Please refer to the student re-entry and the Administration of VA Benefits policy. Any academic forgiveness does not alter the student's CGPA or affect MTF for purposes of Title IV SAP assessments and Title IV SAP.

**Texas Altierus Career College**  
**Arlington (Mid-Cities), Ft. Worth South, Austin, Houston Bissonnet, Houston Hobby, San Antonio**  
**2017 - 2019 Catalog, Volume I, Version II**  
**Addendum Effective 06/01/18**

■ **ADDENDUM effective February 1, 2018:** The new Pharmacy Technician diploma program information was added for the Bissonnet campus.

**PHARMACY TECHNICIAN**

*Diploma Program*  
 Bissonnet campus  
 33 weeks – 760 hours – 48 credit units  
 Modality: Full Blended

The Pharmacy Technician Diploma program provides both technical and practical training which will enable the technician, upon certification, licensure or registration, to function as a competent entry-level pharmacy technician to the licensed pharmacist. The program provides the student with the basic knowledge of and practice in pharmacy calculations, drug distribution systems, and preparation of sterile dosage forms. Computer skills necessary in pharmacy practice will be utilized and both pharmaceutical and medical terminology and disease states, are also covered. The program emphasizes theory, as well as hands-on practice, followed by an externship which prepares the student for the actual work setting. Upon completion of this program, the graduate will be eligible to take the national pharmacy technician certification exam offered by the Pharmacy Technician Certification Board (PTCB).

Pharmacy services have expanded and grown at an accelerated rate. Pharmacy Technicians play a major role in pharmacy operations and in the overall healthcare work force. As pharmacy services continue to grow, with new services being offered, new drugs entering the market, and as comprehensive drug information becomes a necessity, the need for highly-trained pharmacy technicians increases.

Many of the traditional pharmacy functions, once performed by pharmacists, are now being performed by pharmacy technicians. Today's pharmacy technician has assumed a position which supports and enhances the progressive direction taken by pharmacy. The technician has also become the key person in assuring the smooth uninterrupted functioning of traditional pharmacy services.

Pharmacy is a dynamic field requiring an ongoing learning process. Graduates from this training program will become active participants in this growing field by exhibiting competence through knowledge and skills learned through the college.

**Module HCIN - Introduction to the Healthcare Profession**

**6.0 Quarter Credits**

This course is designed to provide an introduction to the healthcare profession for new students starting an allied health diploma program. Students will learn the basics of medical terminology, anatomy and physiology, infection control, HIPAA, OSHA and HIV/AIDS. Additional topics covered include professional codes of ethics, medical insurance and billing, keyboarding, computer applications, basic mathematical skill, and critical professionalism skill are also taught. Students will have the opportunity to learn program-specific topics throughout the course. CPR certificate is also included in the course (for some schools, First Aid certificates are also included). Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: None Lecture Hours: 40 Lab Hours: 40

**Module PHTDB-A – History and Ethics of Pharmacy**

**6.0 Quarter Credits**

Included in this module is an overview and historical development of pharmacy. Subjects covered include a history and changing roles of pharmacists and pharmacy technicians. This module covers the Law and Ethics of Pharmacy, which includes the Food and Drug Act, the 1970 Comprehensive Drug Abuse Prevention and Control Act, and other modern-day drug legislation. The module will also cover best practices for high quality customer service, teamwork, and overall professionalism. Hands-on skills in the laboratory practice setting are performed. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: HCIN Lecture Hours: 40 Lab Hours: 40

**Texas Altierus Career College**  
**Arlington (Mid-Cities), Ft. Worth South, Austin, Houston Bissonnet, Houston Hobby, San Antonio**  
**2017 - 2019 Catalog, Volume I, Version II**  
**Addendum Effective 06/01/18**

**Module PHTDB-B - Pharmacology**

**6.0 Quarter Credits**

This module is designed to provide students with an overall understanding of anatomy and physiology as it relates to disease medication and treatment for:

- Endocrine and lymphatic systems
- Nervous system
- Respiratory, cardiovascular, and circulatory systems
- Integumentary system
- Neurological conditions, mental disorders, and muscle relaxants
- G.I. and musculoskeletal systems
- Urinary and reproductive systems
- Oncology
- HIV/AIDS
- Disorders of the eyes and ears

Hands-on skills in the laboratory practice setting are performed. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: HCIN Lecture Hours: 40 Lab Hours: 40

**Module PHTDB-C – Pharmacy Law and Administration for Pharmacy Technicians**

**6.0 Quarter Credits**

This module is designed to provide the student with responsibilities of a technician filling prescriptions, including the information required to fill prescriptions and type the prescription labels. Also covered are the Law and Ethics of Pharmacy which includes the Food and Drug Act, the 1970 Comprehensive Drug Abuse Prevention and Control Act, and other modern-day drug legislation. This module covers preparation and utilization of patient profiles, handling medications, storage and delivery of drug products, records management and inventory control, and compensation and methods of payment for pharmacy services. Students will learn common tasks performed by pharmacy technicians in the hospital practice setting, including policies and procedures, responsibilities of the inpatient pharmacy technician, and specific state requirements regulating the use of pharmacy technicians in various states.

Hands-on skills in the laboratory practice setting are performed. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: HCIN Lecture Hours: 40 Lab Hours: 40

**Module PHTDB-D –Pharmacy Operations in the Retail and Hospital Settings**

**6.0 Quarter Credits**

This module is designed to provide the student with an overall understanding of the administrative aspects and hands-on applications involved in working in a pharmacy to include. These topics include description of medication administration, safety, emerging therapies, and quality assurance. Also included are review of policy and procedure manuals, materials management of pharmaceuticals, the pharmacy formulary system, computer applications in drug use control, and receiving and processing medication orders. Also covered in this module are drug distribution systems utilized in the pharmacy to include pharmacy stocking and billing, inventory, and purchasing. Hands-on skills in the laboratory practice setting are performed. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: HCIN Lecture Hours: 40 Lab Hours: 40

**Module PHTDB-E –Medical Calculations and Non-Sterile Compounding**

**6.0 Quarter Credits**

This module is designed to provide the student with an overall understanding of medical calculations and non-sterile compounding. Conversions and calculations used by pharmacy technicians will be discussed along with drug dosages in units and working with compounds and admixtures. Repackaging and compounding of hazardous and chemotherapeutic products using material safety data sheets (MSDS) will be discussed and performed. Calculations and dimensional analysis of drug dosages will also be covered. Hands-on skills in the laboratory practice setting are performed. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: HCIN Lecture Hours: 40 Lab Hours: 40

**Module PHTDB-F –Medical Calculations and Sterile Compounding**

**6.0 Quarter Credits**

This module is designed to provide the student with an overall understanding of medical calculations and sterile compounding. Conversions and calculations used by pharmacy technicians will be discussed along with drug dosages in units and working with compounds, admixtures, and parenteral and IV medications. This module covers infection control, mitigation of medication errors and quality assurance practices in the pharmacy setting. Students will examine intravenous flow rates of large volume and small volume IV and infusion of IV piggybacks. Repackaging and compounding of hazardous and chemotherapeutic products using material safety data sheets (MSDS) will be discussed and performed. Critical care flow rates and automated medication dispensing systems are discussed and calculated. Hands-on skills in the laboratory practice setting are performed. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: HCIN Lecture Hours: 40 Lab Hours: 40

**Texas Altierus Career College**  
**Arlington (Mid-Cities), Ft. Worth South, Austin, Houston Bissonnet, Houston Hobby, San Antonio**  
**2017 - 2019 Catalog, Volume I, Version II**  
**Addendum Effective 06/01/18**

**Module PHTDB-X – Pharmacy Clinical Externship**

**6.0 Quarter Credits**

This 200-hour module is designed to provide the student with supervised, practical hands-on and observational experiences in the working pharmacy. Students will be expected to gain experiences in either a hospital pharmacy or a community (retail) pharmacy. Students will gain exposure to “on-the-job” experiences and training in the pharmacy setting and practice of skills, gaining experiences in all aspects of drug preparation, and distribution utilized by participating sites. Prerequisite: Completion of Didactic Program. Lecture Hours: 0 Lab Hours: 0 Other Hours: 200

\* Enrollments are no longer accepted in this programs

■ **ADDENDUM effective February 1, 2018:** The Bissonnet campus was added to the Pharmacy Technician Program section shown below.

**Pharmacy Technician Program (Arlington, Bissonnet, Hobby, and San Antonio Campuses Only)**

All applicants for the Pharmacy Technician program must have be a High School graduate or have a GED; must reach 18 years of age on or prior to the expected date of graduation; and students must meet with the Program Director prior to enrollment in the program. In addition, all applicants will be required to complete a student disclosure form and undergo a background check appropriate for a license in the field which includes fingerprinting. Pharmacy Technician students will also need to meet the Texas State Board of Pharmacy requirements in order to work as a pharmacy technician following graduation.

As a service to better support our graduates, Altierus Career College will assume the cost of the application (\$47) and the fingerprinting fee (\$42) for students to register as a pharmacy technician trainee.

Students are encouraged to seek registration or licensure as required by State Law. Failure to comply will result in being determined ineligible from the process, which will have a negative impact on career placement assistance and employment eligibility.

**Texas Registration/Certification Requirements**

- Graduates from the Pharmacy Technician program are required to register with the Texas State Board of Pharmacy as a pharmacy technician trainee. As a service to better support our graduates, Altierus Career College will assume the cost of the application (\$47) and the fingerprinting fee (\$42).
- Within two years of obtaining the pharmacy technician trainee license, graduates are required to register with the Texas State Board of Pharmacy as a pharmacy technician.
  - Registration Fee: \$80-82 depending on applicant birth month. Please contact the Texas State Board of Pharmacy at (512) 305-8000 to confirm payment amount.
  - Fingerprinting Fee: \$42 unless previous fingerprinting fee was submitted
  - National Examination Fee through the Pharmacy Technician Certification Board: \$129

**Texas Altierus Career College**  
**Arlington (Mid-Cities), Ft. Worth South, Austin, Houston Bissonnet, Houston Hobby, San Antonio**  
**2017 - 2019 Catalog, Volume I, Version II**  
**Addendum Effective 06/01/18**

■ **ADDENDUM effective February 1, 2018:** The underlined language was added to the Transcript and Diploma Release section as follows:

**TRANSCRIPT AND DIPLOMA RELEASE**

Requests for transcripts must be submitted to the Office of the Registrar via the school electronic transcript service provider. Student records may be released only to the student or his/her designee as directed by the Family Educational Rights and Privacy Act of 1974. Students will receive one free transcript at the time of graduation with their diploma. Additional transcripts are \$7.50 per copy.

Altierus Career College is working with Parchment to provide electronic delivery of official transcripts to students. Students can request their transcript by going to <https://www.altierus.edu/alumni> or by contacting the Registrar office for assistance. Transcripts will be delivered electronically to the student's destination of choice if:

- Student has a record in the current student information system
- Student is current with their financial obligation to the campus, and student owes the campus an outstanding balance of \$1,500 or less

Upon graduation, all students who are current with their financial obligation to the campus will receive their diploma.

Note: Students who have outstanding balances above \$1,500 may receive an unofficial copy of their transcript.

■ **ADDENDUM effective December 15, 2017:** The following updates were made to the table below for the Bissonnet campus: marked Medical Insurance Billing and Coding as a teach out program and the Business degree program was added.

**PROGRAMS OFFERED BY LOCATION**
